

Saturday, February 22, 2014
University of Oregon - Eugene
Geography Section
Oregon Academy of
Science

The Geography Section invites Abstracts for two types of presentation.

Oral Presentation Illustrated, oral papers on any aspect of Geography are welcome. Presentation of Graduate student in-progress work is especially encouraged; this meeting offers a friendly venue for a student to make a first professional presentation. Presenters should assume that the audience has a broad basic understanding of the geography discipline. A PowerPoint projector and computer will be available and papers should be 15 minutes, plus 5 minutes for discussion.

Poster A poster tends to be less formal than an oral paper and allows for extended one-on-one discussions. A poster can be particularly useful for obtaining feedback on in-progress work or work involving high-detail graphics that do not project well. A poster should (1) focus on no more than three points, (2) use only a minimum amount of text, (3) rely heavily on graphics, and (4) be 48 inches x 48 inches. Poster presenters should stand by their posters during the morning coffee break.

Geography Abstracts are due by Friday, January 24, 2014.
Register by that same date for lowest registration fees.

Meeting details and registration forms are at www.oas.pdx.edu.

Get details from and submit Abstracts to either of the Geography Section Co-Chairs:

Joe Poracsky - poracskyj@pdx.edu

Jackie Olson - jcolson@usgs.gov - 503/251-3268
