

GIS Analyst

Department: GIS

Location: Portland, OR

Integral Consulting Inc. is a national science and engineering firm providing multidisciplinary services in the fields of environmental science and engineering, health, ecology, aquatic sciences, geology and hydrology, atmospheric science, and environmental chemistry. We are currently seeking a highly motivated **entry level GIS Analyst** candidate to fill a full-time staff position in our **Portland, OR**, office.

The GIS Analyst position requires at least a B.S. in geography, geology, environmental science, or related field and completion of relevant college level courses or training in GIS. Qualified applicants will have knowledge of theory, implementation, integration, and application of GIS, geospatial technologies, and GPS. Two years of GIS work experience is desirable.

Responsibilities of this position include support in the areas of map production, data management, and spatial analysis for multiple state and federal environmental investigations. Additional duties may include general technical support (spreadsheet work, calculations, and QA/QC).

Candidates must have strong knowledge of ESRI's ArcGIS version 9.x and 10 software suite, MS Office (particularly Excel), Adobe Acrobat, and familiarity with relational databases (MS Access), AutoCAD, and computer programming scripting (Python). Ideal candidates will be able to work independently and will possess strong organizational abilities; excellent written, oral, quantitative, and graphic communication skills; and a high attention to detail.

Competitive salary is commensurate with experience. Integral provides an exceptional benefits package with company-subsidized insurance, and an exciting work environment with opportunities for significant professional growth.

Integral Consulting is an equal opportunity employer.
